Company Profile

WHO WE ARE?

1823-2002

The title "Smith" as "Lohar" given to our ancestor by 'Mughal Emperor' when they start making smithing tools like Knives, Swords, Daggers, blades and sell them to Mughal of that era. In 1823, after taking training from his ancestor, One of Smith Worker named Mr. Fazal Din returned to his hometown Sialkot, Pakistan, to start a knife-making industry that soon became the major craft of Sialkot. Mr. Fazal Din fine design and workmanship of table knives soon made his products desired in the finer homes of Pakistan. Founder of M/S CFD. Mr. Amin, son of Mr. Fazal Din, learn the making of surgical instruments at that time. He too help his father to start this trade there. He promoted the modern surgical vast range of instrument and achieved the highest result. He also introduced small hand tool and tool kits. The knife makers who had been trained by his father were quick to enter this new field, and soon Sialkot was also known for its instrument industry. His son, Asif Amin, born in 1954, learned the surgical instrument-making trade thoroughly from his father and added to his experience in order to design and manufacture of surgical instruments. In 1980, He was the actual man who introduces "CFD" in the field of defense products and made Head office in Rawalpindi. He improved himself to have the good relationship with the defense organization and promote the business. He not only supply products to Defense Organization but start local trade of surgical and dental products in different hospitals of Rawalpindi/Islamabad. In 1985, after getting success locally, He visited Germany to start export surgical items like surgical scissors, Forceps, Eye Instruments, Dental Instruments, Urethral Instruments, Midwifery instruments, Diagnostic Sets, Strelizers etc. We may add that under the guidance of Mr. Asif Amin, CFD became the main supplier of various defense products and firm production has acclaimed as good of any and proved true to recognized test until his Death in 1999. Asif Amin was the real smith and also backbone of "CFD". So after his death, No body from his brother took the challenge so they decided to dissolve CFD in 2002 and separated by taking their shares equally. Mubeen Asif, Son of Asif Amin, remain the part of CFD for 3 year. After separation, he not look back and by following the path of his father, start learning the art of making surgical and dental instruments in Sialkot for almost 10 years.

History Of Smithcare

In 2012, Mubeen Asif with his two brothers, established "SMITHCARE" and made his father office as Head office in Rawalpindi with its production facility in Daska Road Sialkot to start selling surgical instruments locally to different hospitals in Rawalpindi/Islamabad. In 2015, after success locally, Asif sons made sale office at Amin Plaza Paris Road Sialkot and decided to start exporting worldwide. All the operation regarding export will be handle through Sialkot office.

Instrument Trays with Bracket Lock

Bracket Lock has a locking arm rather than a loose clip. The arm is hinged and swings up and over the instruments, giving you full and easy access to your instruments. Once used, swing the arm back thus locking it in place, keeping your instruments safe and your staff protected whilst processing for readiness again. Manufactured from the highest quality stainless steel and silicone, Easy-Tray are further enhanced by electropolishing them to give a bright, shiny, smooth, easy to clean surface. Easy-Tray are designed for use in ultrasonic baths, washer disinfectors with all known solutions and autoclaves to 134°, unwrapped, wrapped or in a full hospital wrap.
